La Palmosa Ranch, Mexico, desert bighorn sheep hunt. We are happy to once again offer this spectacular desert bighorn sheep hunt on the sprawling La Palmosa Ranch in Cuatrociénegas, Coahuila, Mexico. This **seven day free range hunt** is planned for mid to late October of 2024, although the dates can be moved pending availability. The 100,000 acre La Palmosa Ranch is the result of a vision to restore native wildlife, both big game and non-game species, to the Chihuahuan desert of northern Coahuila. The buyer of this hunt will be only the second hunter of the season, making him or her able to go after one of the biggest rams that the ranch's scouts have spotted during the off season. All hunters who have purchased this tag in the past have harvested rams that scored at least 183 B&C points (gross green scores), far above the minimum for entry into the Boone and Crockett all-time records book. Expect to hunt mesa and mountain terrain on the ranch that ranges from 4,200 to 8,600 feet in elevation. Transportation during the hunt will include Jeeps and UTVs. The ranch headquarters is an immaculate five-star lodge with individual casitas lavishly appointed with exceptional artwork and Santa Fe-inspired antique furnishings. Accommodations are word class, including private villas for all guests, gourmet Mexican meals by a full-time chef, a private spa, a lodge with bar, poker and pool tables, and two dining rooms. In addition to the hunter, the hunt includes **one non-hunting guest**, and other non-hunters are welcome at the ranch's standard rate, pending availability. This donation includes trophy fees, CITES fees, exportation brokerage fees to the US, and shipping of your trophy to anywhere in the US. Helicopter pickup at the airport is available for an additional fee.
