Turner Ranch Outfitting conducts this and other hunts company wide and will provide the guide services for this pinnacle big game hunt. The raffle winner will join us and two other ram hunters during the hunting season.

This free ranging wild sheep population has produced trophy rams for all of our guided hunts as well as a translocation capture for other mountain ranges. This range is entirely within the ranch's 350,000 acres. We monitor the sheep population year round and scout prior to the hunts for current activity.

We enforce a wounding policy on our private land guided hunts to encourage responsibility for careful shot placement, closest possible stalks, and an enjoyable experience with respect for wildlife. If an animal is wounded, every effort from that point on will be for that animal only, until the hunt terminates.

**Hunt the desert bighorns on the Fra Cristobal Mountains within the Armendaris Ranch in New Mexico!
