Banquet Draws 200 Plus

More than 200 Society members, spouses and friends attended the April Annual Awards Banquet at the Safari Hotel Convention Center in Scottsdale. After a sumptuous fare of prime rib, the group was treated to some fascinating insight into the problems created by the Feral Burro in the Grand Canyon area. The talk and accompanying slides showing the devastation and overall reduction in wildlife population in Burro areas graphically demonstrated the problem. The Banquet speaker, Dr. Steve Carrothers of Flagstaff's Arizona Museum left all attending with something to think about and a practical rather than emotional understanding of how difficult the problem is.

The Society would like to thank Ed Shannahan for his handling of the podium, all those who contributed raffle gifts and door prizes, Harry Hussey and his committee who put it all together, and last but not least the people who came out to make this year's Banquet the most successful ever.

Special congratulations go again to the ten recipients of the trophies for super successful hunts.

Dr. Steve Carrothers' study of burro effect in the Grand Canyon area illustrated a wildlife loss due to habitat destruction that extended all the way down to the field mouse.

Society to Publish Journal Of Charles Sheldon

The Journal of Charles Sheldon (circa 1913-1916) will be published in the near future by the A.D.B.S.S. The manuscript, which was brought to the Society by Paul Webb and Dave Brown of the Arizona Game and Fish, vividly describes the area wildlife in the early 1900's. An in-depth biological research study, the Journal will be edited by Webb and Brown — with a preface by Bill Sheldon.

Sheldon will also underwrite the cost of the color frontis piece with the Society contributing \$2,500 to \$3,000 to publish 1,000 copies of the finished work.

All proceeds derived from publication will be used by the Society for its transplant work. We'll keep you advised of progress and how you can order your copy.

Here are a few of the trophy heads displayed at the banquet.

SUCCESS!

Al Tompkinson of Tucson credits information gained at the seminar and his son with helping him bag this 164 point beauty in Unit 40A. Below: John Krause may be only 14, but his 10-year-old 151 point Ram is old enough. It was taken on the 12th day of the hunt in Unit 44B.

Dave Pugh was guided to this 163 point trophy by Steve Weisser of Arizona Outfitters. The Ram was taken from Unit 45A. Below: Ray Larson, Eau Claire, Wisconsin, came to Unit 45C to complete his Grand Slam with this 12-year-old Ram.
